Closed width	380 mm (15 in)	Open width	737 mm (29 in)
Length	965 mm (38 in)	Recycled content	97%
Box quantity	200 liners	Packing format	8 folds x 25 liners
Minimum net box weight	3.81 kg	Unit of supply	1 box

Use and handling

Select a suitable bin or sack holder and avoid overfilling. Do not exceed the 10 kg CHSA design load. Distribute contents evenly and avoid sharp, hot or chemically incompatible waste that could puncture or weaken the liner. Close securely before removal and use suitable manual-handling precautions. Not intended for clinical, hazardous or controlled waste unless suitability and disposal arrangements have been confirmed.

Storage and disposal

Store in the original carton in a cool, dry place away from direct sunlight, heat and ignition sources. Unused clean polythene film may be recyclable where suitable facilities exist. Used liners should be disposed of in accordance with the waste contained and applicable site or local requirements.
