Positioning and operation

Place on a firm, level, heat-resistant surface and maintain the ventilation clearances stated in the manufacturer's instructions. Connect only to a suitable 240V supply. Use microwave-safe containers, select the required power level and set the manual timer. Do not operate the appliance when empty.

Care and safety

For indoor use only. Do not use metal containers, foil or sealed vessels unless specifically approved for microwave use. Keep ventilation openings clear. Disconnect from the mains before cleaning or moving. Never immerse the appliance or supply lead in water, and refer repairs to a competent person.
